

## Enterprise

Cambridge IGCSE Enterprise is a dynamic course, perfect for any student desiring to establish their own enterprise, or work within growing enterprises. Students can expect to grow in all areas essential to successful enterprise establishment and operation. From business planning, identifying their personal skillsets, understanding risk, market research, cash flow and finance, negotiation, communication and evaluation. This course involves both practical coursework and examination, empowering students to learn how to take the action necessary for their own business project as well as understand how enterprises are established.
